COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17 UNDER THE FEDERAL GOVERNMENT, 2001.

ECONOMICS, PAPER-I

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including question No.8 which is COMPULSORY. All questions carry EQUAL marks.

- What is the most important determinant of consumer spending? Are there
 determinants other than the one mentioned above? If so, explain.
- "GNP is a monetary measure". Explain. In what way is GNP different from GDP? Describe two important methods of measuring GDP.
- 3. What is the Multiplier Effect? What relationship does the marginal propensity to consume(MPC) bear to the Multiplier and the marginal propensity to save (MPS)? What will the size of Multiplier be when the MPS is 0; 0.4; 0.6 and 1?
- 4. What items constitute money supply in Pakistan? What determines value of money and why is it important for money supply to be elastic i.e. capable of increasing/decreasing in size?
- "When a commercial bank makes loan, it creates money; when loans are retired, money is destroyed". Explain.
- 6. What is deficit financing? Why is it resorted to in developing countries like l'akistan?
- Import tariff protection was used as a forceful policy instrument in the past to
 establish investment priorities in the developing countries. Discuss the economic
 implications of reducing import tariff to the minimum globally under auspices of
 WTO Conventions to which Pakistan is a signatory.

COMPULSORY QUESTION

- Write only the correct answers in the Answer Book. Do not reproduce the questions.
 - (1) Budgetary Deficit refers to:
 - (a) Total Revenue Receipts minus Total Expenditures
 - (b) Fiscal Delicit minus Interest Payments
 - (c) Total Receipts (Revenue Account + Capital Account) Minus Total Expenditures (Revenue + Capital)
 - (d) None of the above.
 - (2) Increase in the number of buyers in the market would lead to a shift of the demand curve to:
 - (a) the right
- (h) the left
- (c) upwards along the curve
- (d) None of the above.

Page 1 of 3

ECONOMICS, PAPER-1

- (3) Balance of Trade Deficit refers to:
 - (a) Excess of payments for import of goods and services over receipts from exports of goods and services
 - (b) Excess of receipts from commodity exports minus payments for imports of goods
 - (c) Payments for commodity imports minus receipts from commodity exports
 - (d) None of the above.
- (4) A monopolist gains more if:
 - (a) clasticity of demand for his product is low comparatively
 - (b) elasticity of demand for his product is high comparatively
 - (c) demand elasticity does not change.
 - (d) None of the above .
- (5) Devaluation of Pak. Rupee in the 1990's led to:
 - (a) Increase in exports
 - (b) Increase in imports
 - (c) Increase in both exports and imports
 - (d) None of the above.
- (6) Most sophisticated models of economics growth are based on:
 - (a) realistic assumptions
 - (b) unrealistic assumptions
 - on assumptions, at least some of which are extremely difficult to be proved as valid
 - (d) None of the above.
- (7) Real GDP refers to:
 - (a) GDP, at constant prices
 - (b) GDP, at current prices over time
 - (c) GDP, at nominal prices over time
 - (d) None of the above.
- (8) Terms of trade refer to:
 - (a) unit price for commodity import
 - (b) Value of exports vs Value of imports
 - (c) Exchange rate applicable to foreign trade of a country
 - (d) None of the above.
- (9) Cost push inflation is the result of:
 - (a) increase in the production cost
 - (b) increase in the price of industrial production
 - (c) escalation of international prices
 - (d) None of the above.
- (10) Competitive market comprises:
 - (a) large number of buyers
 - (b) large number of firms
 - (c) large number of both buyers and producers
 - (d) None of the above,
- (11) A monopolist maximizes his profit at a point where:
 - (a) His average cost curve meets the marginal revenue curve
 - (b) His marginal cost = marginal revenue
 - (c) His average cost = market price of market
 - (d) None of the above.

- - Foreign debt, Development, Defence (a)
 - Defence, foreign debt, development (b)
 - Development, Defence and foreign debt (c)
 - (d) None of the above.
- (17)Increase in Foreign Exchange reserves causes:
 - inflation (a)
- deflation (b)
- (c) No increase in price level
- (d) None of the above.
- Pakistun's Budget deficit is financed by:
 - Revenue Budget surplus (a)
 - Borrowings (both bank and non-bank) (b)
 - Foreign resoruce inflow (c)
 - None of the above. (d)
- Most important economic indicator of the health of an economy is:
 - Income per capital (a)
- National output (b)
- Literacy rate (c)
- (d) None of the above.
- Most important catalyst in economic growth is: (20)
 - savings and investment (a)
- technology and skills (b)
- both at (a) and (b) (c)
- (d) None of the above.

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17 UNDER THE FEDERAL GOVERNMENT, 2001.

ECONOMICS, PAPER-II

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including question No.8 which is COMPULSORY. All questions carry EQUAL marks.

- Discuss the role of foreign aid in the development strategy of Pakistan development budget.
- What are characteristic reasons of the failings of economic planning in Pakistan?
- Amplify to differentiate the terms -of ONP and GDP and discuss the contribution of agriculture sector v/s industrial sector in the GDP of Pakistan.
- 4. Write an essay on the scope of introduction of interest free banking in Pakistan.
- 5. What do you know of tax reforms in Pakistan in recent months? What are the basic reasons of the failure of increasing the tax-net?
- 6. Clarify the distinction between any two of the following:
 - (a). Public Finance v/s Private Finance
 - (b). Foreign Remittances vis Export Earnings
 - (e). Agriculture tax vis Value added tax.
 - (d). Budget estimates vis PSDP.
- 7. What do you understand of cash crops? What important role cash crops play, in export earnings of Pakistan?

COMPULSORY QUESTION

Write the correct answer in the answer book. Do not reproduce the question.

(A)

- External debt servicing is greater than:
 - (a) Social sector spending
- (b) Defense spending
- (c) Agriculture servicing
- (d) Industrial sector investment

- (e) None of these.
- (2) Pakistan foreign earnings largely depends on:
 - (a) Agricultural products
- (b) Industrial products
- (c) Overseas Pakistanis remittances
- (d) Software exports

- (c) None of these.
- (3) Nationalization of 70s in Pakistan has done:
 - (a) More good to the economy
- (b) More harm to the economy
- (c) Has not affected the economy substantially
- (d) Has not been effective considerably
- (e) None of these.
- (4) The largest revenue collection is through;
 - (a) Income tax
- (b) GST
- (c) Customs duty

- (d) Wealth tax.
- (c) None of these.

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN PBS-17, UNDER THE FEDERAL GOVERNMENT, 2003

ECONOMICS, PAPER-I-

tice in

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including Question No.8 which is COMPULSORY. All questions carry EQUAL marks, Write clearly.

- Discuss which of the three approaches explain better consumer behaviour and why?
- Show and explain the conditions of output maximization and cost minimization.
- Explain how the modern theory of interest (IS LM) model came into being and how is it different than the other theories?
- Explain stagflation and give a viable strategy to overcome this phenomenon.

) Pakistan:

sis:

- 5. It is desirable to have a larger proportion of direct taxes in the taxation structure. Explain why? Also explain, why in a developing country like Pakistan, efforts to raise the share of direct taxes have not met with success.
- Critically examine the theory of comparative cost.
- 7. Write notes on the followings:-
 - Role of IMF and its impact on developing economies.
 - (ii) Government expenditure and economic development.

COMPULSORY QUESTION

held in

 Write only the correct answers in the answer book. Don't reproduce the questions.

st, 1947

 Total revenue receipts are maximum at that point on a demand curve where price elasticity is:

(a) Increasing

(b) Decreasing

(c) Unitary

- (d) None of these.
- (2) Which of the following products will have an elastic demand:
 - (a) Flour

(b) Cloth

(c) Honda City

(d) None of these.

id the

- (3) Price controls are:
 - (a) Necessary for consumer's welfare
 - (b) A must to check inflation
 - (c) Doomed to fail.
 - (d) None of these:
- (4) Increase in minimum wage:
 - (a) Helps in controlling unemployment
 - (b) Increases unemployment
 - (c) Reduces wage bill
 - (d) None of these.

etoral

- (5) An indifference curve gives:
 - (a) The actual combination of goods that consumer chooses.
 - (b) The minimum choice of the consumer.
 - (c) The highest level of satisfaction.
 - (d) None of these.

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN PBS-17, UNDER THE FEDERAL GOVERNMENT, 2003

ECONOMICS, PAPER-II

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including Question No.8 which is COMPULSORY. All questions carry EQUAL marks.

- Perpetual budget deficits indicate that governments in Pakistan have been 1. 'die-bard' Keynesian. That legacy still being there, discuss the rationale of endorsing the neo-classical counter-revolution, as witnessed by both privatization and the increasing role of the private sector in Pakistan's
- 2. "The debate on 'growth and equity' trade-off that ensued in the second half of the 1960s, was largely responsible for the subsequent paradigm shift. However, the economic and social indicators in the 1970s, scarcely justified the latter". Discuss.
- 3. Do you agree that numerous structural imbalances are seriously hampering Pakistan's sustainable development, and sooner they are redressed is better, even if the process involves compromising short-run growth targets?
- 4. Differentiate between the private and the social rate of return. Do you agree that public spending on health and education for maximizing the latter? What in your opinion is the respective state of affairs in Pakistan?
- Differentiate between foreign portfolio and foreign direct investment, and \$. discuss the relative merits and demerits of the each type for a country like Pakistan.
- "There are some believe that in the early 1960s, Pakistan was at the take-off stage of the Rostow's scheme of growth. However, a close study of the latter indicates that Pakistan, in many ways, has jumped into the last stage now, without-ever having transcended even the second stage of growth". Discuss.
- Compare the performance of Pakistan's agricultural pricing policy with that of 7. the Common Agricultural Policy (CAP) and the Farm Support Program of the U.S. of America.

COMPULSORY QUESTION

- Write only the correct answer in the Answer Book. Do not reproduce the question.
 - Balance of payments deficit implies: (1)
 - (a) Deficit in the current account (b) Deficit in the Capital account
 - All of these. (c) Deficit in the trade balance
 - (e) None of these.
 - Pakistan's major trading partners are:
 - (a) Japan and China
 - Islamic countries (b)
 - (c) Western Europe and U.S.A
- (d) Both a & b
- (e) None of these.
- Pakistan became a member of Multifibre Arrangements (MFA) in: (3)
 - (a) 1950s

1960s (b)

(c) 1970s

- None of these. (d)
- Presently, in Pakistan the largest contribution to GDP is made by the; (4)
 - (a) Primary sector
- Secondary sector (b) None of these.
- (c) Tertiary sector (5) The tertiary sector includes:
 - Transport services
 - (a) Professional services (c) Distributive services
- All of these.

- (c) None of these.
- Pakistan's custom duty rates are highest on:
 - (a) Intermediate goods
- (b) Consumer goods
- (c) Basic raw materials
- (d) Chemicals and components.
- (e) None of these.

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17, UNDER THE FEDERAL GOVERNMENT, 2004

ECONOMICS, PAPER-1

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE: Attempt FIYE questions in all, including Question No. 8 which is COMPULSORY. All questions carry EQUAL marks.

- Resource allocation and their outcomes are the Central goals of all individuals. The emphasis is not on supply side, rather price is determined by what people want and are prepared to pay for?
- If aggregate demand exceeds the productive capabilities of the conjumy at full employment, there will be insufficient out put to meet demand at hig current price level. It creates an inflationary pressure and can be demonstrated as inflationary gap. Discuss.
- State and demonstrate the determinants of Money supply in an economy. What role does it
 play, if there is increase or decrease in money supply?
- High tax rates means large disincentives to productive efforts that aggregate supply and tax revenues are both restricted. Give your arguments for a just tax System.
- 5. The major issue of developing countries is the volume of production and quality control. Customers and consumers expect it. How the producers exceed customers expectations? How will you recommend the business community to prepare themselves for Global Free Trade?
- IMF exist to co-ordinate foreign exchange dealings, and to give macro-economic policy advice. It provides a frame work on matters of monetary and exchange rate policy. Discuss.
- Critically examine that the Quantity Theory of Money is more accurately a monetary theory
 of the price level.

COMPULSORY QUESTION

- Write only the correct answer in the Answer Book. Do not reproduce the question.
 - In supply of and Demand for a product, an increase in production costs will shift:
 - (a) Demand Curve to the left
- (b) Supply Curve to the right
- (c) Demand Curve to the right
- (d) Supply Curve to the left
- (e) None of these
- (2) When a demand schedule is drawn up, which of the following is not held constant:
 - (a) Price of Substitutes
- (b) Price of factors of production
- (c) Price of Complementary goods
- (d) The price of the goods

- (c) None of these
- (3) The more a person consumes of a thing:
 - (a) The smaller is his total gain
 - (b) The slower is the rate of increase in his total pleasure
 - (e) The higher is the price.
 - (d) Consumes the maximum
 - (e) None of those
- (4) When AC is less than MC:
 - (a) An increase in output would cause AC to rise
 - (b) Fixed costs must be rising
 - (c) AC to fall
 - (d) Should not produce beyond minimum AC
 - (c) None of these
- (5) A firm's total fixed costs are Rs.2400. If at a certain output its price per unit is Rs.20/- and average variable cost per unit is Rs.14/-. The level of out put is:
 - (a) 1000 units
- (b) 800 units
- (c) 600 units

- (d) 400 units
- (e) None of these

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17, UNDER THE FEDERAL GOVERNMENT, 2004

ECONOMICS, PAPER-II

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including OUESTION No. 8 which is COMPULSORY. All questions carry EOUAL marks.

- Economic development does not simply raise the community to a higher level of economic 1. welbeing but reorganize the society from within. Define economic development in the light of above statement. Show how it can be measured?
- 2. What is inescapable is a change or an effective planning. Surplus Labour hidden capital and mobility of resources cannot be increased a great deal without welwoven planning. Give a critical evaluation of planning experience in Pakistan.
- 3. Agriculture stimulate Industrial Sector, and through effective International Trade can earn Substantial Foreign exchange. In the absence of agriculture tax and value added tax which remain one of the most useful Fiscal Instrument at the disposal of a conscious state for raising funds for agriculture development projects. Give a critical review of agricultural policies.
- Dr. KUZNETS writes that the major stock of a nation is not its physical equipments. The essential investment is largely in human beings and not in sticks and stones. Unless human Capital efficiently developed, tangible results in industrial development can not be realized. Discuss in detail.
- Small and medium type business get easy access to the funds, have tremendous potentials of growth and contribute a lot to the society. Provided they extend a needed service, charge reasonable price and do it well. Signify the role of medium type business for economic development.
- The only remedy is to privatize public sector projects as quickly as possible, so that funds 6. are made available at a competitive rates to competitive projects. Let visions and ideas come from the state so that private initiative can be educated to constitute and flourish. Discuss.
- 7. To be competitive, organizations have no choice, but to use the management concept and techniques to innovate and to lead to new challenges. Signify the direction of trade and trends in Pakistan's major exports and imports.

COMPULSORY QUESTION

- Write only the correct answer in the Answer Book. Do not reproduce the whole question. 8.
 - Most of the public sector projects were in loss because:
 - Setting up of industries in backward meas (a)
 - Where private investors were hesitahl to invest. (b)
 - Profit making was not the objective (c)
 - Projects were facing numerous problems and consumers were exposed to (d) taxes
 - Many manufacturing units were nationalized because: (2)
 - 22 families were found having control over a lion share (a)
 - (b) producers paid wages which were below the subsistence wage rate
 - Capitalist class was given protection (c)
 - Consumers had to face increasing Indirect taxes. (d)
 - Which of the following be the reason for poor performance of Nationalised Units: (3)
 - (a) Repeated rupee devaluation
 - Multiple exchange rate system (b)
 - Import duties and tariff walls reduced -(c)
 - Tax rebates and incentives to the producers were withdrawn. (d)
 - The main objective of a wage and income policy is:
 - An increase in economic growth and reduced unemployment (a)
 - (b) Wage increases without out-break of inflation.
 - (c) To increase exports and reduce current account deficit.
 - (d) Have low interest rate.
 - (5) Safety net is a level of income that:
 - Union want (a)

employees want

employers want is minimum amount acceptable. (c)

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17, UNDER THE FEDERAL GOVERNMENT, 2005

ECONOMICS, PAPER-I

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE: Attempt FIVE ou

Attempt FIVE questions in all, including QUESTION NO.8, which is COMPULSORY. All questions carry EQUAL marks.

- The major economic problem in a society is not the volume of Production from scarce resources but rather how the resulting Products are distributed among the consumers in a society. Discuss?
- In any economic system decision regarding how to allocate scarce resources among competing uses is performed with help of price mechanism? How will you determine the ability of an economy to to reach a rational decision.
- 3 Equilibrium level of National income is at the point of effective demand. Higher the level of effective demand, higher will be the level of income and employment in the economy. Taking leakages and injection approach when C+I > C+S, when C+I = C+S, and when C+I < C+S. Demonstrate your answer diagrammatically</p>
- 4 Liquidity preference theory is the Keynesian view why people want to hold liquid funds. State the motives in support of the liquidity preference in an Economy. How will you describe supply of money and distinguish between Narrow money and Broad money.
- The managers of the exchequer explained the economic policies in term of driving cars. Maintaining a correct relationship between the pressure of demand and the capacity of the economy to meet the demand, the govt is supposed to touch the accelerator (reduce taxes), to touch the brakes (increase taxes) if demand was running fast. What just system you can propose to deal with the situation. Suggest the constraints you will face.
- To join hands with the communities of nations Pakistan trading advantage can only be in least cost combination and constantly improving quality of its products. Agriculture sector must be industrialized as much as possible with effective land reform.

 Comment?
- 7 State the aims of International Monetary Fund and give its principal functions Do you think that the prescriptions suggested by the IMF benefit the developing countries more or deprive them of the existing facilities?

ECONOMIC, PAPER-I:

COMPULSORY OUESTION

8 write only the correct answer in answer book. Do not reproduce the question. which cause the demand curve for a good to move to the right, A decrease in the cost of production. B A fall in the price of the good. C An increase in the price of a complimentary good. D An increase in the price of a close substitute good. 2 If an economy experiences an increase in productivity, it means that; The level of output has risen. B employees are working harder than before. C output per unit of input has risen. D technical change has taken place. 3 The central economic problem in an economy refers to: The prevalence of unemployment, B to allocate scarce resources between competing uses. C Consumers having less money than they would like. D ensures that production costs are covered by sales revenue. If the price elasticity for a product is -2, a 10 % fall in its price will; Decrease total revenue by 20 % A B Increase sales volume by 10 % C increase sales volume by 20%. D increase total revenue by 20 % 5 Average cost curve rises after a certain level of output because of Diseconomies of scale of production. A B Law of decreasing returns. C Diminishing marginal utility. D rise in price of factor of production. which one of the following will tend to increase the degree of Competition in an industry. product differentiation. A B Horizontal integration. C Economics of scale. low fixed costs. 7 A rise in the interest rate can lead to all except which one, A Fall in the share prices. 13 A rise in investment C A rise in exchange rate. A shift of income from borrowers to savers

ECONOMIC, PAPER-I:

- 15 which one of the following is most likely to lead to a fall in the money supply. A fall in the interest rates. A Purchase of government securities by the state Bank. В C Sale of government securities by the state Bank. D A rise in the amount of cash held by commercial banks. 16 the real rate of interest is . the rate at which the central bank lends to financial institutions. Bank base rate. C the difference between the rate of interest and the rate of inflation. the annual percentage rate of interest 17 Public sector borrowing requirement is best defined as, the borrowing by the general public over the period of a year. B to finance the difference between a country's exports and imports.
 - C the amount of taxation and borrowing needed to finance public
 - expenditure.
 - D the difference between government expenditure and its revenue from taxation.
- 18 Multi - national company is best described as one which,
 - engages extensively in international trade.
 - B Sells its output in more than one country.
 - C Produces goods or services in more than one country.
 - D Is owned by share holders in more than one country.
- 19 Which of the following is not an economic advantage of international trade
 - Α . It encourages specialization.
 - B Consumer choice is widened.
 - C industry secure economies of large scale production.
 - D trade surpluses can be used to finance the budget deficit.
- 20 which of the following cause most likely a country's balance of payments to move towards a deficit.
 - devalue the country's currency. A
 - B the expansionary fiscal policy.
 - C A contractionary fiscal policy.
 - D a rise in the rate of domestic saving.

ECONOMIC, PAPER-I:

- 8 if demand is inelastic, which of the following statement is correct.
 - A If price of the good rises, the total revenue earned will increase.
 - B If price of the good rises, the total revenue carned will fall.
 - C If price of the good falls, the total revenue earned will increase.
 - D If price of the good falls, the total revenue earned is unaffected.
- 9 which would shift the production possibility frontier to the right.
 - A fall in unemployment.
 - B An increase in exports.
 - C A rise in total consumer expenditure.
 - D technical progress reducing production costs.
- 10 A fiscal expansion is most likely to reduce unemployment when,
 - A there is high marginal propensity to consume.
 - B there is high marginal propensity to save.
 - C structural unemployment.
 - there is fixed exchange rate.
- 11 Economic welfare refers to:
 - A An increase in state welfare payment.
 - B a rising standard of living.
 - C Increased employment opportunities.
 - D increase in health and education services.
- 12 In calculating National income, double counting can be avoided by.
 - A deducting taxes and adding subsidies.
 - B deducting imports and adding exports.
 - C excluding the value of the output of intermediate goods.
 - D excluding the value of transactions in second hand goods.
- 13 Government wish to control inflation because it,
 - A tends to reduce government tax revenue.
 - B Causes money supply to expand.
 - C damages international competitiveness.
 - D shift income towards holders of financial assets.
- 14 if the exchange rate of currency fell, the result would be that export prices,
 - A measured in the domestic currency would fall.
 - B measured in the domestic currency would rise.
 - C measured in foreign currency would fall.
 - D measured in foreign currency would rise.

COMPETITIVE EXAMINATION FOR RECRUITMENT TO POSTS IN BPS-17, UNDER THE FEDERAL GOVERNMENT, 2005

ECONOMICS, PAPER-II

TIME ALLOWED: THREE HOURS

MAXIMUM MARKS: 100

NOTE:

Attempt FIVE questions in all, including QUESTION NO.8, which is COMPULSORY. All questions carry EQUAL marks.

- 1 Economic development is an innovative process leading to structural transformation of social systems. It is a phenomenon known for the transmutation of existing conditions by expanding the socio physical infra-structure of an economy for improving the quality life of the masses. It can be achieved only through proper implementation of a well woven plan. Examine the statement?
- 2 Capital widening and Capital deepening requires the capital stock to grow faster than the labourtorce. It is time we must change our priorities, unless it is properly developed, tangible results cannot be realized. Discuss with reference to power and communication sector. Give suggestions.
- 3 National planning in Pakistan has faced numerous upheavals which has subjected the national process of planning to many ups and downs, which consequently lead the economy to search new strategy of diversified sources of external assistance. That is why planning process did not reflect any clear cut vision of a socio economic policy. ? Critically examine the statement?
- 4 Foreign direct investments are not flowing-in any sizable extent. With tight situation in terms of availability of assistance, can we raise sufficient revenue to cover our development and non development expenditure. How can we do it? Suggest measures?
- 5 The economy needs new directions based on long term self reliance. The time has come to deal with causes and cures of mass poverty. National income determines the economic status of a country's economy. Signify the National income in a country?
- 6 we have plenty of economic potentials but what is lacking and lagging behind is the competency and capability to utilize the hard earned scarce resources. The rich have learned it and have started walking on the tight rope. Now their problem is not to study the pros and cons of their productive sectors, rather have focused attention on exploring multiple opportunities. Discuss?
- 7 When we look into the past, we find that industrial sector has resulted in a low or negative productivity, operating below Break Even Point, causing all its working and paid up capital under financial constraints with no possibility of capital returns. What is needed is the creation of conducive environment. Suggest the remedial measures for environment management in an economy.

ECONOMICS, PAPER, II:

COMPULSORY QUESTION

- 8 Write only the correct answer in the answer book. Do not reproduce the whole question.
- 1 The greatest requirement for economic development is;
 - A to sacrifice present enjoyment for tomorrow's benefits.
 - B Increase in National income.
 - C invention and innovation in all productive sectors.
 - D mechanization of agriculture,
- 2 Per Capita output would probably rise but output per worker would fall If;
 - Capital deepening occurred rapidly.
 - B Labour force participation rate of the population rose.
 - C technical education of the work force increased.
 - D Involuntary saving was increased.
 - 3 Most of underdeveloped countries are agricultural with low income and needs;
 - A increase in income of the people depends upon agricultural output.
 - B Land can be owned collectively.
 - C land can be owned by large capitalist farmers.
 - D land can be owned by laborers who till it.
 - 4 Voluntary saving will most likely increase if,
 - A Tax rates are increased.
 - B interest rate rise.
 - C distribution of income becomes more unequal.
 - D the rate of inflation increases.
 - 5 Economic growth;
 - A is synonymous with economic development,
 - B refers to qualitative change experienced by an economic system.
 - C when an economic system acquires greater productive capacity.
 - D always result in increased real per capita output.
 - 6 Capital deepening;
 - A is an increase in the ratio of labour to capital.
 - B necessarily increases real per capita output.
 - C is less likely to be effective in fostering growth in rich countries than in poor countries.
 - D Can occur when saving rates are zero.
 - Interest of the developed world in the development of under developed economics on;
 - A general political freedom and promotion of free societies.
 - B if world is not free their freedom would be in danger.
 - C they want to stop and check tyranny and aggression.
 - developed countries need customers for their surplus production.

GNP at factor cost may be best defined as

	Α	the total of goods and services produced within an economy over a give time period.
	В	the total of expenditure of consumers on domestically produced goods and service.
	C	all incomes received by residents in a country in return for factor services provided domestically and abroad.
	D	the value of total output produced domestically plus net property income from abroad minus capital consumption.
9	which	one of the following is a transfer payment in National income
		1977.17 A 13 13 13 13 13 13 13 13 13 13 13 13 13 13
	۸	Educational scholarships.
	В	Salaries of employees
	C	Payments for text books.
	D	Payment for examination fee.
10		is the basic concept which underlies accelerator theory of investment
	A	investment depends on the level of savings
	B	investment is inversely related to the rate of interest.
	С	investment is determined by the volume of Commercial Bank Lending.
	D	investment rises when there is an increase in the rate of growth of demand in the economy.
11	which	one of the following would cause a fall in the level of aggregate demand
		economy.
	Λ	a decrease in the level of imports.
455	В	a fall in the propensity to save,
877	Č	a decrease in government expenditure.
	D	a decrease in the level of income tax .
12	Capit	al formation remained very low in Pakistan due to
1000	A	low saving rate.
	В	Savings are not fully invested.
	C	Money and capital market are not stable.
	D	due to high rate of inflation purchasing power is very low.
13	Effici	ent allocation of resources in an economy occurs whenever,
	٨	Prices is equated to Marginal social cost in some units.
	В	Income and wealth are distributed in a fair way.
	· C	there is full employment of resources.
	Ď	the existing resource allocation cannot be changed without making it worse off.
